

WEB PRICE NOTES

IMPORTANT NOTICE FROM IPRA PRICING DEPARTMENT

The Scroll Bar is only for members on twice weekly change - this is updated numerous times during the day.

The confirmed price change is the price adjusted plus or minus for the next schedule change, i.e. on Wednesday the confirmed price shown is for deliveries on Thursday.

The live daily forecast on the web is the change for day 2, i.e. it is the forecast plus or minus that your company will apply i.e. on Wednesday the live daily forecast is for deliveries on Friday. Again this is updated several times during the day.

NOTE 1. There is no live price on Saturdays and on UK bank holiday weekends as the markets are closed.

NOTE 2. For significant changes plus or minus over 1cpl IPRA will send out an email as well.

NOTE 3. As the confirmed price is the actual Platts posted price change for the previous midnight we will not be sending this out by email in future.

NOTE 4. The confirmed and live forecast are only for members on daily pricing.
